1 | Introduction

About This Report

Cadence operates on a diagnostic rather than purely evaluative philosophy. This report identifies what occurred during speech delivery, where specific patterns appeared in the recording, and what targeted drills to practice. The numeric scores are a byproduct of this diagnosis, not the primary output.

Analysis evaluates five independent axes: Fluency & Rhythm, Pronunciation & MTI, Prosody & Intonation, Stutter & Disfluency, and Vocabulary & Grammar. These dimensions are scored separately on purpose—an MTI pronunciation pattern and an unrelated stutter call for fundamentally different practice regimens, even though conventional evaluations often conflate them into a single score.

The six dashboard scores are computed deterministically from audio-derived metrics (precise millisecond word timing, acoustic pause analysis, and phonemic/WER alignment against the reference passage)—never estimated or generated by an LLM. The AI's role is strictly confined to qualitative explanations, contextual insights, and coaching guidance.

Score Interpretation

All scores are on a scale of 0–100.

70–100: Proficient
Candidate demonstrates clear, business-ready communication with minimal interference.

30–69: Developing
Candidate is intelligible but demonstrates noticeable issues requiring targeted practice.

0–29: Needs Significant Work
Candidate's speech frequently impedes comprehension; foundational training required.

Sample user transcription.

ERROR SUMMARY	
Mispronunciation	2
Vocabulary Errors	0
Stutters/Repetitions	0
Unnatural Pauses	1
Filler Words	2
MTI Substitutions	1

SPEECH STATISTICS	
Total Words	120
Speech Rate	140 WPM
Ideal Range	130-150
Total Sentences	12
Avg Sentence	3.5 sec
Longest Pause	1.2 sec

Word-Level Error Log

No specific word-level errors were heavily detected.

Sentence-by-Sentence Breakdown

Sentence 1: "This is test sentence number 1 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues: Minor vowel shift in clause 1
Fluency: Natural pacing with 120ms pause
MTI Detected: None detected
Rhythm: Standard cadence
Intonation: Appropriate terminal fall

Sentence 2: "This is test sentence number 2 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues: Minor vowel shift in clause 2
Fluency: Natural pacing with 120ms pause
MTI Detected: None detected
Rhythm: Standard cadence
Intonation: Appropriate terminal fall

Sentence 3: "This is test sentence number 3 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues: Minor vowel shift in clause 3
Fluency: Natural pacing with 120ms pause
MTI Detected: None detected
Rhythm: Standard cadence
Intonation: Appropriate terminal fall

Sentence 4: "This is test sentence number 4 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues: Minor vowel shift in clause 4
Fluency: Natural pacing with 120ms pause
MTI Detected: None detected
Rhythm: Standard cadence
Intonation: Appropriate terminal fall

Sentence 5: "This is test sentence number 5 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues: Minor vowel shift in clause 5
Fluency: Natural pacing with 120ms pause
MTI Detected: None detected
Rhythm: Standard cadence
Intonation: Appropriate terminal fall

Sentence 6: "This is test sentence number 6 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues: Minor vowel shift in clause 6
Fluency: Natural pacing with 120ms pause
MTI Detected: None detected
Rhythm: Standard cadence
Intonation: Appropriate terminal fall

Sentence 7: "This is test sentence number 7 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues: Minor vowel shift in clause 7
Fluency: Natural pacing with 120ms pause
MTI Detected: None detected
Rhythm: Standard cadence
Intonation: Appropriate terminal fall

Sentence 8: "This is test sentence number 8 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues:	Minor vowel shift in clause 8
Fluency:	Natural pacing with 120ms pause
MTI Detected:	None detected
Rhythm:	Standard cadence
Intonation:	Appropriate terminal fall

Sentence 9: "This is test sentence number 9 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues:	Minor vowel shift in clause 9
Fluency:	Natural pacing with 120ms pause
MTI Detected:	None detected
Rhythm:	Standard cadence
Intonation:	Appropriate terminal fall

Sentence 10: "This is test sentence number 10 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues:	Minor vowel shift in clause 10
Fluency:	Natural pacing with 120ms pause
MTI Detected:	None detected
Rhythm:	Standard cadence
Intonation:	Appropriate terminal fall

Sentence 11: "This is test sentence number 11 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues:	Minor vowel shift in clause 11
Fluency:	Natural pacing with 120ms pause
MTI Detected:	None detected
Rhythm:	Standard cadence
Intonation:	Appropriate terminal fall

Sentence 12: "This is test sentence number 12 with detailed phonemic annotations and multiple sub-clauses to test vertical sizing in react-pdf."

Pronunciation Issues:	Minor vowel shift in clause 12
Fluency:	Natural pacing with 120ms pause
MTI Detected:	None detected
Rhythm:	Standard cadence
Intonation:	Appropriate terminal fall
