1 | Introduction

About This Report

Cadence operates on a diagnostic rather than purely evaluative philosophy. This report identifies what occurred during speech delivery, where specific patterns appeared in the recording, and what targeted drills to practice. The numeric scores are a byproduct of this diagnosis, not the primary output.

Analysis evaluates five independent axes: Fluency & Rhythm, Pronunciation & MTI, Prosody & Intonation, Stutter & Disfluency, and Vocabulary & Grammar. These dimensions are scored separately on purpose—an MTI pronunciation pattern and an unrelated stutter call for fundamentally different practice regimens, even though conventional evaluations often conflate them into a single score.

The six dashboard scores are computed deterministically from audio-derived metrics (precise millisecond word timing, acoustic pause analysis, and phonemic/WER alignment against the reference passage)—never estimated or generated by an LLM. The AI's role is strictly confined to qualitative explanations, contextual insights, and coaching guidance.

Score Interpretation

All scores are on a scale of 0–100.

70–100: Proficient
Candidate demonstrates clear, business-ready communication with minimal interference.

30–69: Developing
Candidate is intelligible but demonstrates noticeable issues requiring targeted practice.

0–29: Needs Significant Work
Candidate's speech frequently impedes comprehension; foundational training required.

Score Dashboard

Core Competency Scores

Detailed Sub-Dimensions

2 | Insights

Pronunciation Accuracy

78/100

Accuracy of sounds

Clear overall.

Fluency & Rhythm

85/100

Flow of speech

Consistent pacing.

MTI Deep Dive

Detected L1 Influence: Indian English

Retroflex Consonants

Score: 45

- Slight retroflex d/t

Sample user transcription.

ERROR SUMMARY	
Mispronunciation	2
Vocabulary Errors	0
Stutters/Repetitions	0
Unnatural Pauses	1
Filler Words	2
MTI Substitutions	1

SPEECH STATISTICS	
Total Words	120
Speech Rate	140 WPM
Ideal Range	130-150
Total Sentences	6
Avg Sentence	3.5 sec
Longest Pause	1.2 sec

Word-Level Error Log

Timestamp	Word	Said As	Correct IPA	Error Type	Severity
0:12	"deliverables"	"televables"	"/dʒɛljv.ɹ.ɹ.bɪlz/"	substitution (Pronunciation)	moderate

Sentence-by-Sentence Breakdown

Sentence 1: "First sentence of the speech."

Pronunciation Issues:	None
Fluency:	smooth
MTI Detected:	no
Rhythm:	natural
Intonation:	appropriate

Sentence 2: "Second sentence of the speech with more details."

Pronunciation Issues:	deliverables
Fluency:	minor pause
MTI Detected:	retroflex d
Rhythm:	natural
Intonation:	appropriate

OVERALL SPEECH SCORE

82^{/100}

CEFR SPEAKING LEVEL

B2

Top Strengths

- Good pace
- Strong vocabulary

! Priority Improvements

- Clear consonant endings
- Reduce filler words
